

European Green Deal

Project Outputs & Deliverables

Dr. Rıza Gürbüz

Project Coordinator

23 October 2023, Dalyan

European Green Deal and

- **European Green Deal ?-1**

- **Striving to be the first climate-neutral continent**

- Climate change and environmental degradation are an existential threat to Europe and the world.
 - To overcome these challenges, the European Green Deal will transform the EU into a modern, resource-efficient and competitive economy, ensuring:
 - 1- No net emissions of greenhouse gases by 2050,
 - 2- Economic growth decoupled from resource use,
 - 3- No person and no place left behind.

European Green Deal

- **European Green Deal ?-2**
- The European Green Deal is also our lifeline out of the COVID-19 pandemic. **One third of the €1.8 trillion** investments from the Next Generation EU Recovery Plan, and the EU's seven-year budget will finance the European Green Deal.
- The European Commission has adopted a set of proposals to make the EU's climate, energy, transport and taxation **policies fit for reducing net greenhouse gas emissions by at least 55% by 2030**, compared to 1990 levels. More information on Delivering the European Green Deal.

European Green Deal

- **The benefits of the European Green Deal**

The European Green Deal will improve the well-being and health of citizens and future generations by providing:

- 1- Fresh air, clean water, healthy soil and biodiversity,**
- 2- Renovated, energy efficient buildings ,**
- 3- Healthy and affordable food ,**
- 4- More public transport ,**
- 5- Cleaner energy and cutting-edge clean technological innovation,**
- 6- Longer lasting products that can be repaired, recycled and re-used,**
- 7- Future-proof jobs and skills training for the transition ,**
- 8- Globally competitive and resilient industry .**

European Green Deal

[REPowerEU](#)

Affordable, secure and sustainable energy for Europe

European Green Deal

Climate

Becoming the first climate neutral continent by 2050

European Green Deal

Energy

A clean and efficient energy transition

European Green Deal

Environment and Oceans

Protecting our biodiversity and ecosystems

European Green Deal

Agriculture

A healthy food system for people and the planet

European Green Deal

Transport

Providing efficient, safe and environmentally friendly transport

European Green Deal

Industry

**An industrial strategy for a competitive,
green and digital Europe**

European Green Deal

Research and innovation

Its role in driving transformative change

European Green Deal

Finance and regional development

Sustainable investments to deliver the European Green Deal

European Green Deal

[New European Bauhaus](#)

A creative and interdisciplinary initiative that connects the European Green Deal to our living spaces and experiences

European Green Deal

Preserving our environment

- Europe's seas, oceans, and environment are a source of natural and economic wealth for Europe.
- We must preserve and protect them to ensure that they continue sustaining us in the future.

European Green Deal priorities include

- protecting our biodiversity and ecosystems
- **reducing air, water and soil pollution**
- moving towards a circular economy
- **improving waste management**
- ensuring the sustainability of our blue economy and fisheries sectors

European Green Deal

RESULT:

- By working on these key areas, the EU will improve the health and quality of life of citizens, address environmental problems and reduce greenhouse gas emissions.
- The European Commission adopted a set of proposals to make the EU's climate, energy, transport and taxation policies fit for reducing net greenhouse gas emissions by at least 55% by 2030, compared to 1990 levels.
